"After a muted Q1, Q2 witnessed encouraging growth across key businesses. Jewellery clocked healthy double-digit growth for the quarter. Our portfolio approach in this business of straddling diverse customer needs through the brands of Tanishq, Mia, Zoya and CaratLane is working well. The buyer growth metrics were fairly strong and in good double-digits across gold and studded product categories. The quarter also witnessed analog watches growing 25%+ over last year with commensurate uptick in volumes. Titan brand continues to be Indian consumers proud choice in this segment. On account of the customs duty related losses, as well as the need to invest in growth of various businesses, the profitability of Q2 was quite depressed. However, we are quite confident about the competitiveness of each of our businesses and we remain optimistic about our performance for rest of the financial year."
